

## PRODUCT UPDATE

Release Date : 10 July 2009

### New Product Release - SDL1X

Sokkia is proud to announce the release of the new high-end digital level SDL1X, a high accuracy digital level for first order surveys and various precise measurement applications. The new SOKKIA SDL1X assures efficiency with a versatile on-board program and unique functions tailored for easy sighting.

#### Key features

- 0.2mm height accuracy (standard deviation for 1km double-run leveling)
- 1.6m – 100m distance measurement range
- Dual-axis tilt alarm 
- View finder\* and auto focus (\* )
- Graphic display, alphanumeric keyboard
- Versatile on-board program and various kinds of measurement sequences.
- Internal memory, SD card\*, and USB Flash memory (\* )
- Multiple interfaces including Bluetooth® wireless technology (\* )
- Support other's brand data format and commands as well as CSV/SDR33 formats
- Remote trigger 

The SDL1X is designed to achieve the highest precision and productivity in leveling and height measurement applications. From Intelligent Auto Focus to wireless operation, a number of innovative technologies are implemented for unmatched reliability while eliminating error factors during measurement. The SDL1X sets the ultimate benchmark for the precision digital levels.
